## Dr. Hatcher's Point of View:

Well, fall is almost here –and it is one of my favorite times of the year. School is back in session, football, soccer and other sports start back up, and the air is crisp and cool. Thanksgiving is around the corner and my hope is that we can all find something to be thankful for. I know this has been a very trying year for a lot of families, which make us very thankful not only for our friends and families, but also for the little things in life. We may not always have what we want, but if we have what we need-then that is something to be truly thankful for.
